

# Focused on the Developing High-Grade Gold in Burkina Faso

TSX-V:PAL

# Disclaimer

The data contained herein is provided for information purposes only. Certain information has been compiled from sources believed to be reliable. No information in this presentation is to be construed as an offer to buy or sell securities.

Some statements contained in this presentation are forward-looking and, therefore, involve uncertainties or risks that could cause actual results to differ materially. Such forward-looking statements include among other things, comments regarding mineral resource statements and exploration program performance. They may also include statements with respect to the company's mineral discoveries, plans, outlook and business strategy. The words "may," "would," "could," "should," "will," "likely," "expect," "anticipate," "intend," "estimate," "plan," "forecast," "project," and "believe" or other similar words and phrases are intended to identify forward-looking information.

Factors that could cause actual results to differ materially include, but are not limited to, metal price volatility, economic and political events affecting metal supply and demand, fluctuations in mineralization grade, geological, technical, mining or processing problems, exploration programs and future results of exploration programs, future profitability and production, the ability to raise sufficient capital to fund exploration, litigation, legislative, environmental and other judicial, regulatory, political and competitive developments; technological or operational difficulties or inability to obtain permits encountered in connection with exploration activities; and labour relations matters. This list is not exhaustive of the factors that may affect our forward-looking information. These and other factors should be considered carefully and readers should not place undue reliance on such forward-looking information.

The Company disclaims any intention or obligation to update or revise forward-looking information, whether as a result of new information, future events or otherwise. By continuing to read this presentation and any information provided with it, the reader agrees to hold the Company and its subsidiaries, and their respective officers, employees and agents harmless against any claims for damages or cost or any loss of any kind arising out of the access to or use of the Company's website or any information contained in or obtained through this presentation.

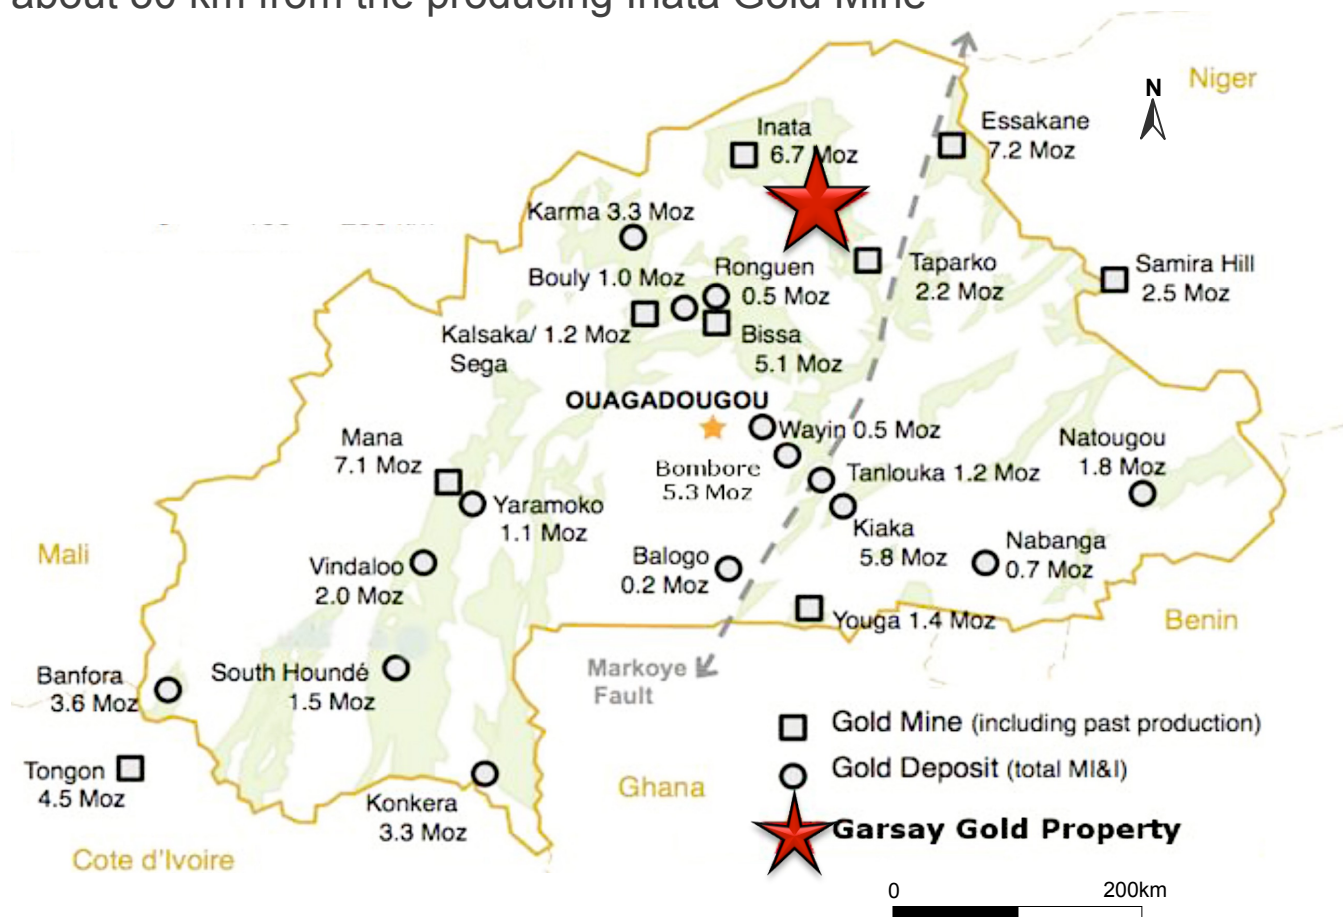

**Certain statements of quantity, grade, or metal or mineral content have not been verified by a Qualified Person as defined by NI 43-101, and were prepared prior to the issuer acquiring, or entering into an agreement to acquire, an interest in the property. Although the figures are relevant and generated from sources believed to be reliable, they have not been confirmed by a Qualified Person as defined by NI 43-101 and, accordingly, should not be relied upon as such.**

## Garsay Gold Property – Location

The Garsay Permit comprises 165.74 km<sup>2</sup> in northeast Burkina Faso, about 30 km from the producing Inata Gold Mine

From 2010 – 2013 Newmont Mining spent over US\$2 million on geophysics, soil and pit sampling, and 166 drill holes totaling 12,355m\*

\* Newmont exploration results have not been verified by a Qualified Person and should be treated as historical.

## Garsay Gold Property – Exploration Results

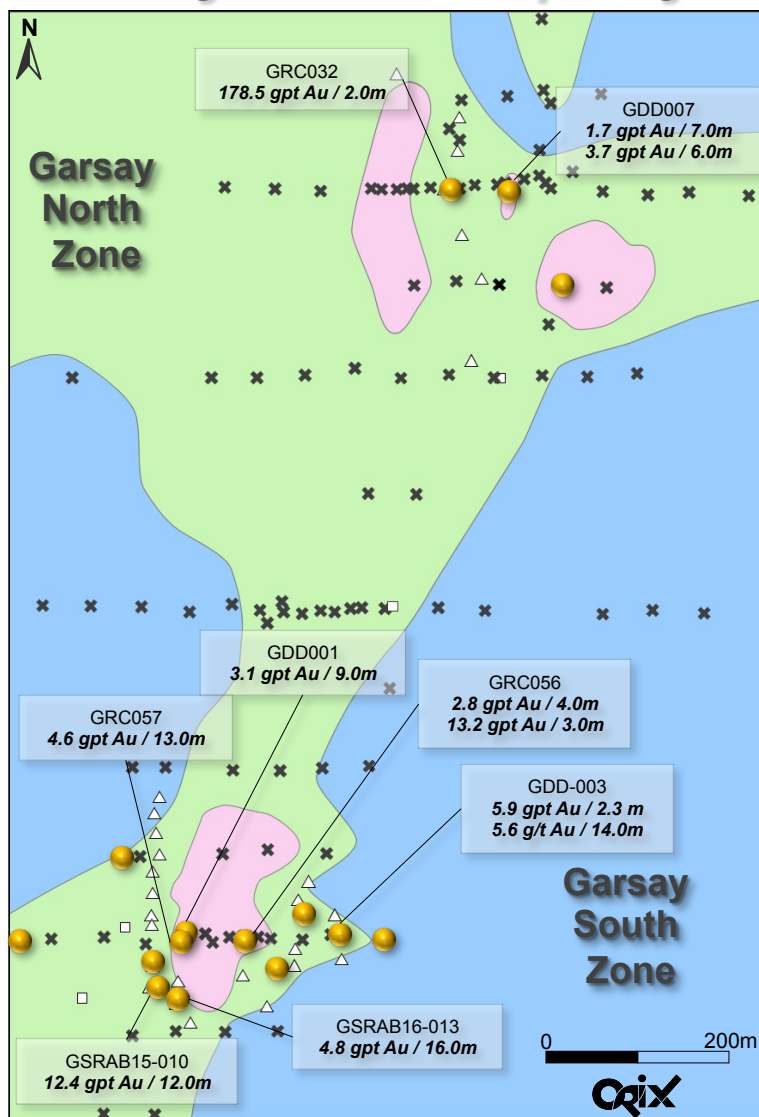

Since optioning the property, the Company's exploration team has continued to identify several high-grade targets along a 1,500 metre strike length.

Significant intersections from these targets include the following:

Hole #	Date	Zone	From (m)	To (m)	Intercept (m) (est true)	Au (g/t)
GSRAB15-03	2015	N	50	60	10 (9.0)	3.00
GSRAB15-05	2015	SE	44	54	10 (9.0)	3.02
GSRAB15-10	2015	SW	32	44	12 (10.8)	12.39
		incl.	40	44	4 (3.6)	33.70
GSRAB16-13	2016	SW	30	46	16 (14.4)	4.79
		incl.	30	34	4 (3.6)	7.21
		incl.	42	46	4 (3.6)	7.21
GSRAB16-15	2016	SW	32	46	14 (12.6)	3.27
DD16-01	2016	SE	454.1	455.8	1.7 (1.6)	5.03
DD16-03	2016	SW	103.5	106.6	3.1 (2.7)	4.24
		and	115.5	117.8	2.3 (1.8)	5.22

## Garsay Gold Property – Plan View

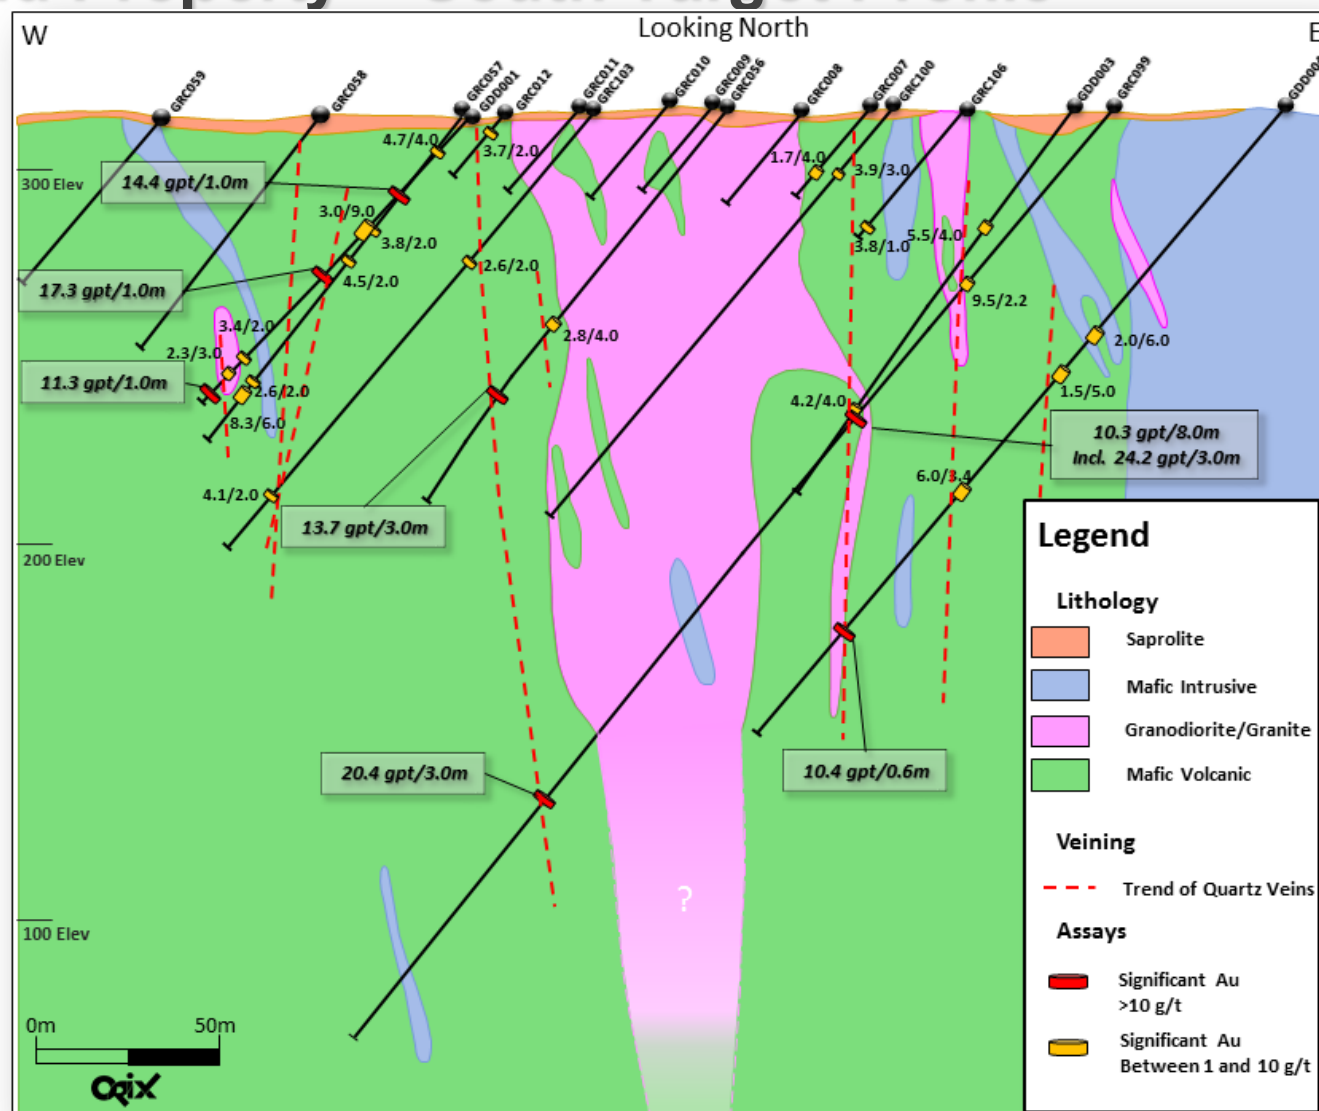

- 2010-2013 work by Newmont Mining focused on discovery of low grade bulk tonnage gold deposit at Garsay
- 2014-2016 work focused on higher grade intercepts associated with volcanic-intrusive contacts
- Recent work has confirmed prior high grade zones and discovered extensions and new zones.
- 2017 drill programs will focus on resource development and discovery of new zones.

# Garsay Gold Property – South Target Profile

- Limited deeper drilling along several profiles indicated high gold grades in multiple vein sets associated with intrusive/volcanic contacts at over 200 m in depth
- The potential may exist for a high grade deposit mineable by open pit and underground methods.

## Garsay Gold Property – The Camp

The camp includes infrastructure and is accessible by road.

## Garsay Gold Property – Option Terms

Parallel Mining holds an option to acquire a 100% right to the Garsay exploration permit.

The terms of the agreement are to pay the optionor:

- a) \$30,000 USD January 30, 2015
- b) \$50,000 USD January 30, 2016
- c) \$100,000 USD January 30, 2017
- d) \$1,000,000 USD January 30, 2018
- e) 1% net smelter royalty
